*"You always want to win. That is why you play tennis, because you love the sport and try to be the best you can at it." -Roger Federer*

I grew up playing tennis and loving the game. My parents first influenced me to play, and I'm grateful to have all the experiences that came with it. I traveled as far as the United Kingdom with my touring team from John Newcombe's Tennis Ranch and my University of Tampa tennis team. I had the pleasure to watch Wimbledon and witness the longest match ever played in the world. I played #1 singles for Hunterdon Central Regional High School varsity tennis team all 4 years and competed in national level USTA tournaments. I was recruited to play division II college tennis for the University of Tampa. I started all 4 years and reached our highest national team ranking at #14. I compete in the Sunshine State Conference, the toughest Division II
