## About

Hello! My name is Kayden, although some people know me as Vanessa. I am currently one week away from gaining a Bachelor of Fine Arts in Digital Arts, focusing in Animation while also minoring in Graphic Design and Philosophy. I find passion in music and helping those in the LGBTQ+ community through education and support. Thanks for checking out my website!

# Branding

## TRAC App

I am currently working in a team at The University of Tampa and the Sheriffs Office of Pasco county to develop an app to help educate and support the nation in the battle against Human Trafficking. As one of two designers on the team, I have worked to develop the entire layout and brand of this application.

## UTampa Pride

UTampa Pride is the LGBTQ+ and ally student organization at The University of Tampa that was formerly known as GLTSBA Pride. When I became President for the 2015-2016 academic school year, I rebranded the organization not only with a new name, and logo, but with a new mentality and mission statement. Since this rebranding, the organizations presence and attendance on campus has more than doubled.
