

Ryan Haynes

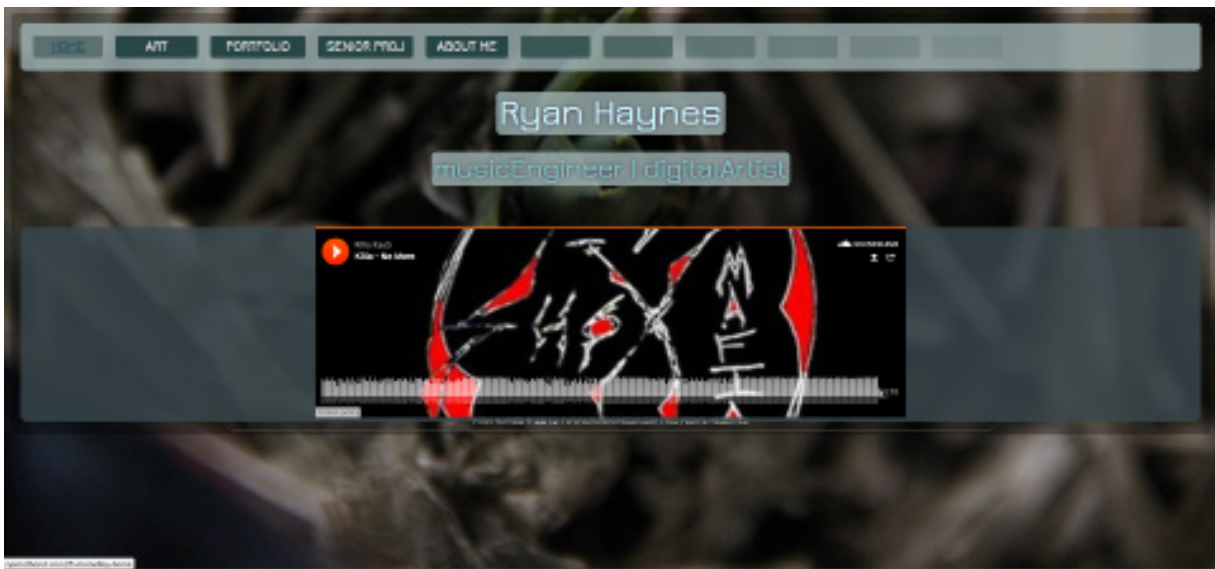

Senior Project

ART 499

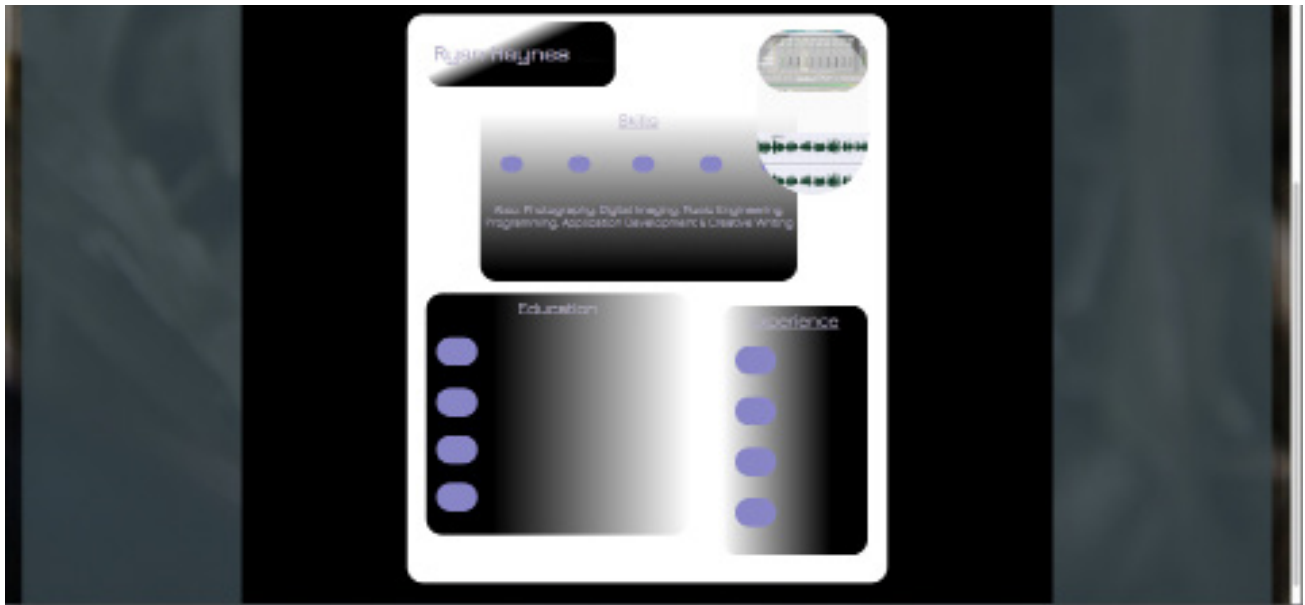

This is my website which I decided to make as my senior project. I plan to use this website to promote my record company in the future which is why I incorporated my music on the first page. I did this so that when persons visit my page for the first time, they will notice that I am a music producer/engineer/song writer/rapper.

Along with my music I also included my art work from my online production class, my portfolio which includes art works from other classes then an about me page which has links to my resume, blog and page that persons can contact me with.

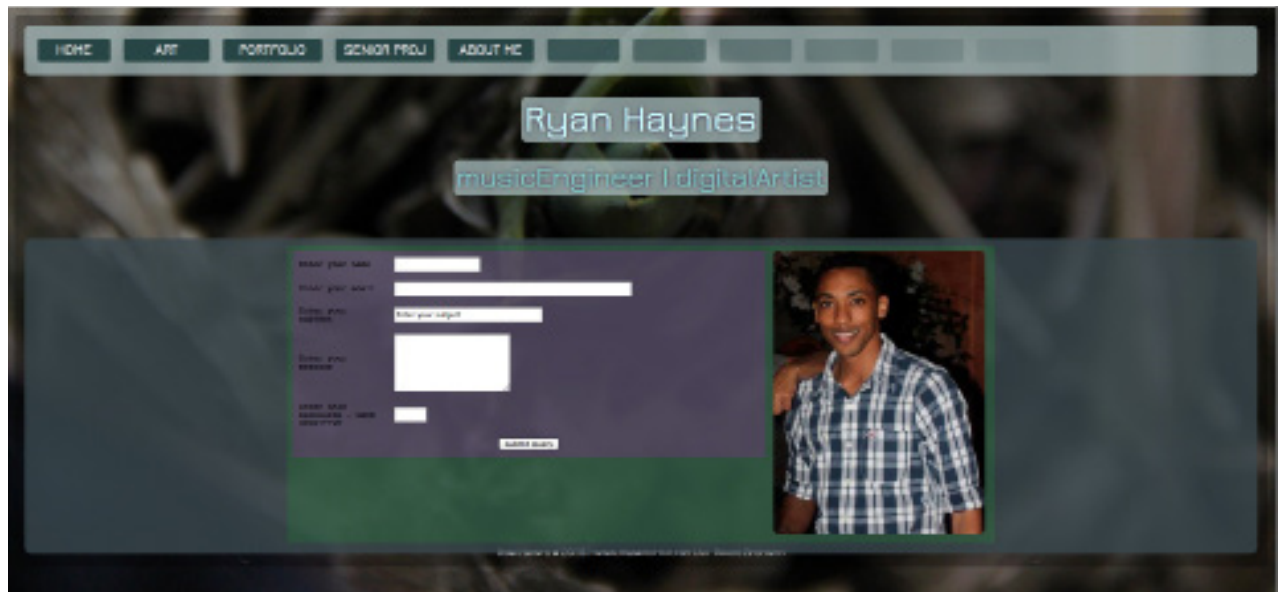

Here are screen shots of my site:

This is my home page.

This is my resume.

This is my contact page.

This is my video poem.

This is my family tree.

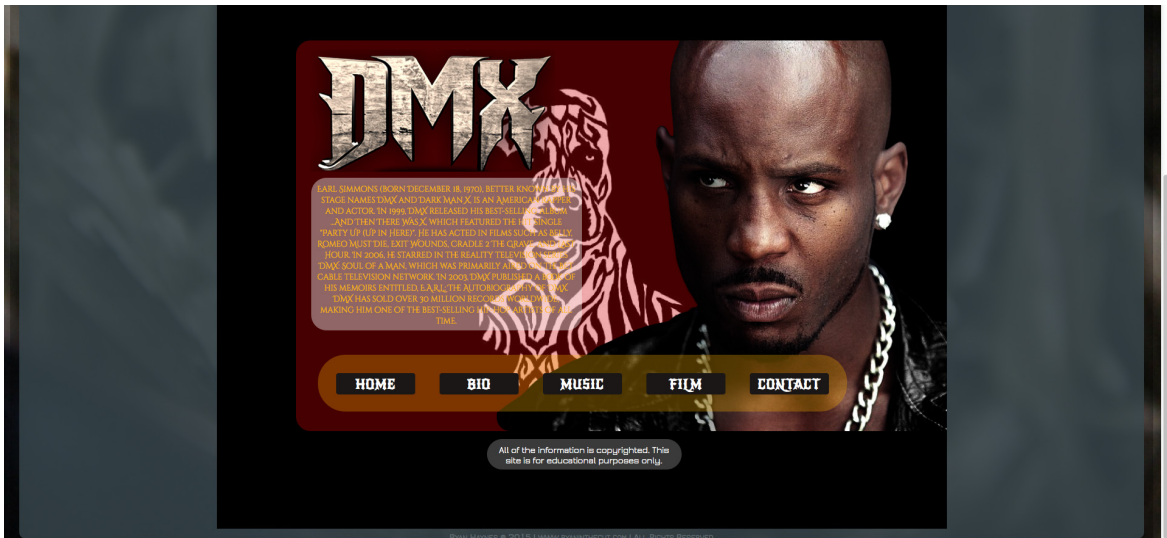

This is my image poem.

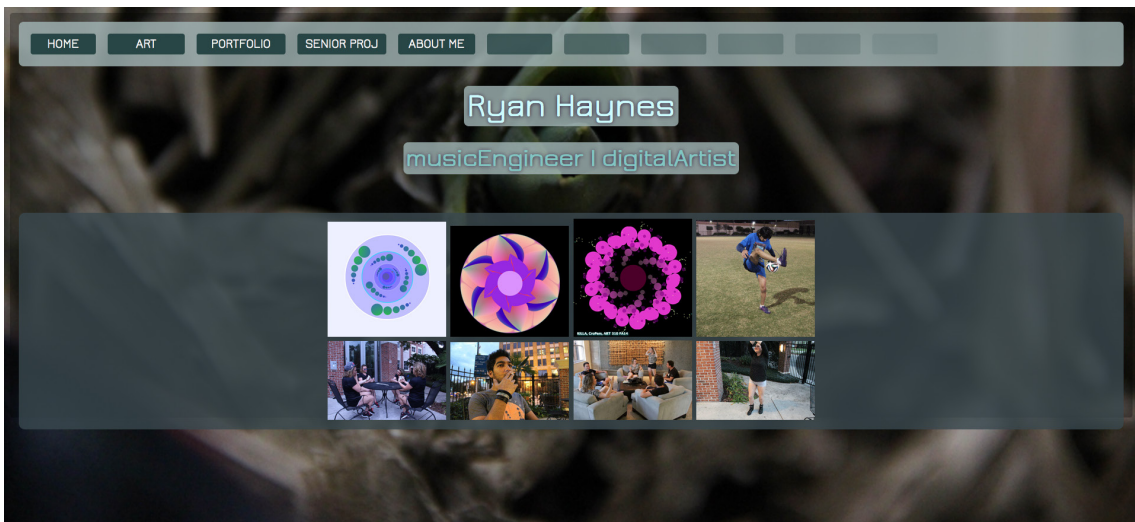

This is my text poem.

This is my fan page.

This is my portfolio.
